LOOSE LEAF TARIFF INFORMATION

This tariff is issued in loose-leaf form and all changes will be made by reprinting the entire page. Such reprinted pages will be designated "Revised Page" and will bear the same page number as the original page. Each revised page will show, in the upper right hand corner, its revision number and what page it cancels. For example "1st Revised Page No. 1 cancels Original Page No. 1", or "2nd Revised Page No. 1 cancels 1st Revised page No. 1". New pages added to the Tariff will be designated "Original Page No. 1A". Revisions of such pages with letter suffixes will be handled in the same manner as described above for pages without letter suffices. Revised pages cancel only pages bearing the same page number. In no case would Page No. 1A cancel Page No. 1, nor would Page No. 1B cancel Page No. 1A.

CHECK SHEET FOR CORRECTION NUMBERS:

Upon receipt of revised or new pages, a check mark should be placed opposite the correction number corresponding to the number shown in the lower left-hand corner of the revised or new page. If correction numbers are checked as received, check marks will appear in consecutive order with no omissions. If check marks indicate that a correction has not been received, a request should be made to the issuing agent for a copy of the page bearing that correction number.

RULES	ITEM NO.:

GOVERNING PUBLICATIONS: **100**

This Tariff is governed, except as otherwise provided herein, by the following publications, including supplements thereto or subsequent re-issues thereof:

1. National Motor Freight Classification, STB NMF 100, series, Issuing Officer.

APPLICATION OF NATIONAL MOTOR FREIGHT CLASSIFICATION

(A) The rates, rules and regulations, estimated and minimum weight shipping and packing requirements, allowances and privileges or other provisions or conditions shown in this tariff supersede those listed in the National Motor Freight Classification.

(B) When the rates in this tariff are silent as to rules and regulations, estimated and minimum weights, shipping and packaging requirements, allowances and privileges or other provisions or conditions, the rates which are prescribed in such commodity items shall be subject to the terms (including estimated and minimum weights, shipping and packaging requirements or other provisions or conditions) prescribed in connection with the ratings in the National Motor Freight Classification referred to above on the same commodity.

(C) Wherever the terms "Less than Truckload" or "LTL" appear in the Governing Classification, the same will be interpreted to mean "Less than Containerload" or "LCL" in the application of this Tariff.

DEFINITIONS - GENERAL: **110**

BREAK BULK CARGO: Break bulk cargo is cargo not configured to be readily transported in closed container equipment. Carrier will handle such cargo either as loose stow or load it to platform equipment at Carrier's option. Unless the Shipper specifically requests consolidation, break bulk rates are not subject to transload or consolidation charges. For rate application of break bulk shipments, see the Carrier's appropriate tariff.

CARRIER'S CONVENIENCE: The term "Carrier's Convenience", as use herein, shall mean any time selected by the Carrier within thirty consecutive calendar days of the tender of the shipment and which does not require a special trip of the Carrier's conveyance.

CONSOLIDATION: Consolidation is the process of combining two or more LCL shipments into a full container load on a single voyage; consolidation will not apply across multiple voyages. LCL shipments tendered for consolidation become known as Part Lots. Consolidation cargo is not subject to transload charges. For rate application of consolidation charges, see the Carrier's appropriate tariff.

RULES TARIFF 100A

RULES	ITEM NO.:

AUTOMOBILE & VEHICLE LOADING SPECIFICATIONS: **355**

Unless excepted by specific tariff commodity provisions or for specific destination ports, personally owned vehicles may have personal effects or other property shipped with them under the following specific conditions.

A. Applicable To All Personally Owned Vehicles:

If the vehicle exceeds the GVWR, owners may opt to either remove cargo from the auto/vehicle to lower its weight or proceed to warehouse receiving for transfer of excess cargo weight to pallets. Cargo transferred from the vehicle to pallets will be billed as less than container load (LCL) cargo at the appropriate commodity rates as listed in this tariff. Owners who are not present at the time of delivery of the vehicle may designate their delivery agent to make this choice, but if no owner or agent is present at the time the vehicle is weighed, then the Carrier will remove items indiscriminately to achieve the most suitable weight and will ship the items so removed as LCL cargo at the prevailing rate. The GVWR can often be found embossed on an identification plate inside of the driver's side door pillar.

For automobiles, box trucks, utility trailers or extended cab pickup trucks, no personal property will be accepted if loaded 1) in the front seat, 2) on the floor of the rear seat directly behind the operator's seat, or 3) anywhere within the passenger spaces to a height that interferes with 360 degree visibility by the vehicle operator through the passenger seat or rear compartment windows. No items may be loaded or secured to luggage racks or similar arrangements on the roofs of automobiles, with the exception of car-top carriers that are specifically designed to be securely attached to such racks and that may be positively closed as part of a design to be reasonably impervious to weather conditions at normal highway speeds.

B. Pickup Trucks

Pickup truck beds may have personal property loaded in the truck bed, but ordinarily not to a level any higher than the height of the cab of the pickup truck. Proper securing and protection of such property will be the responsibility of the Shipper and subject to inspection and approval by Carrier representatives at the time of receipt of the vehicle. This height limit will not be applied in the case of camper tops or other, similar devices that allow for a cargo space to be created behind the cab of the vehicle and which permits a positive closure and securement of the space and protection of the contents inside.

C. Flatbed Trucks

No personal property or other type of cargo will be accepted if loaded on an open, exposed flatbed truck deck unless advance arrangements have been made and approval has been granted for the load by a Carrier representative.

D. Liability for Non-Factory Installed Cargo Loaded in Automobiles and Pickup Trucks:

All such personal property loaded in or on vehicles will be accepted at the Shipper's sole risk of loss or damage from any cause, and no liability for anything other than the vehicle itself will be accepted by the carrier. Claims will not be accepted for any damages to the vehicle that may be attributed to the loading or securing of such personal property within the vehicle. In addition, Carrier reserves the right to reject any such property if, in its sole judgment, the loading or securing of the property or the nature of the items represents a potential danger to the vehicle, other cargo, or personnel. In that event, Shipper will be given the opportunity to remove the items, or may authorize Carrier to repackage the items and ship them as LCL cargo under applicable tariff provisions.

5. CLAIMS:

A. No carrier is bound to transport said property by any particular train or vessel, or in time for any particular market or otherwise than with a reasonable dispatch. Every carrier shall have the right in case of physical necessity to forward said property by any carrier or route between the point of shipment and the point of destination. In all cases not prohibited by law, where lower value than actual value has been represented in writing by the shipper or has been agreed upon in writing as the released value of the property as determined by the classification or tariffs upon which the rate is based, such lower value plus freight charges, if paid, shall be the maximum amount to be recovered, whether or not such loss or damage occurs from negligence.

B. As a condition precedent to recovery, notice of loss must be submitted to the destination office within 72 hours. Carrier allows fifteen days from the date of delivery for inspection of concealed goods and notification of loss or damage, and fifteen days for request for inspection of damaged goods by consignee. While notice of intent to file a claim must be submitted within thirty days of delivery or refusal of delivery, ALL FREIGHT CHARGES MUST BE PAID PRIOR TO SETTLEMENT OF CLAIM. Failure to file claim within ninety days from delivery date or ninety days from reasonable time for delivery in the case of a lost shipment, will result in the claim being denied in full. C. Carrier shall in no event be responsible for indirect or consequential damages, including without limitation extra expense, loss of profits, loss of use of property, delay or damage consequential upon loss of use, whether resulting from negligence, breach of this contract or otherwise by Carrier, and even if the possibility of such damage was foreseeable by carrier, or Shipper had advised Carrier of the possibility of such damages. Carrier shall have the option of replacing any lost goods and replacing or reconditioning any damaged goods. EMIGRANT'S MOVEABLES, HOUSEHOLD GOODS AND PERSONAL EFFECTS: **515**

1. Applicability and Definitions

This provision is applicable to the movement of household goods by householders, as such terms are defined by the United States Department of Transportation at 49 USC 13102(10):

The term "household goods", as used in connection with transportation, means personal effects and property used or to be used in a dwelling, when a part of the equipment or supply of such dwelling, and similar property if the transportation of such effects or property is:

(A) arranged and paid for by the householder, except such term does not include property moving from a factory or store, other than property that the householder has purchased with the intent to use in his or her dwelling and is transported at the request of, and the transportation charges are paid to the carrier by the householder.

For purposes of this Rule, second person pronouns such as "you" or "your" refer to Shipper (customer and householder) and first person plural pronouns such as "we," "us" and "our" refer to Carrier (Samson Tug and Barge Co., Inc.).

2. Rates and Released Valuations

Rate(s) for household goods named in this tariff are based upon a released value of ten cents ($0.10) per pound, which will be the limit of Samson Tug and Barge Co., Inc.'s liability for loss or damage to your household goods and personal effects.

3. Preparing and Tendering Your Goods For Shipment

Your household goods must be dropped off at the terminal and date/time identified on the Declaration of Value in good order, count and condition, and packaged, protected, packed and stowed sufficiently to withstand the rigors of the contemplated transportation services, including, without limitation, transportation by uncovered barge and exposure to moisture, humidity, heat, rolling, pitching and similar barge movements. Some general rules of thumb include:

(1) All belongings that can be wrapped, boxed or somehow contained and protected should be. Please avoid bringing loose items whenever possible. Boxing and protecting your household goods will make the loading process easier and will provide better protection during transportation.

(Continued)

RULES ITEM NO.:

EMIGRANT'S MOVEABLES, HOUSEHOLD GOODS AND PERSONAL EFFECTS: (Continued) **515**

3. Preparing and Tendering Your Goods For Shipment – concl'd

(2) Large items, like furniture and appliances, should at a minimum be covered with a heavy moving blanket or boxed if possible. While shipping containers are generally wind and water tight, you should anticipate the effects of heavy weather and shifting of objects inside the container and against each other.

(3) Please package all items in small, light packages so that you can unload them from the truck/vehicle to the dock. We are not staffed to unload your truck/vehicle for you.

(4) For small shipments (less than the equivalent of six pallet loads or 400 cubic feet) and at your request, we will provide pallet(s) for you to load your household goods onto. Once you have loaded your household goods to the pallet(s), we will undertake to wrap the pallet(s) with plastic wrap and load the pallet(s) into a container.

(5) For larger shipments (greater than six pallet loads or 400 cubic feet or items of greater dimensions than a 4' x 4' pallet), the following shall apply:

a. We will set a container down at our terminal at ground level for you to load. In this situation, you will not be required to load pallets. We find that not using pallets is generally fastest and most efficient for such loads.

b. Please try to load all items to the back of the container as high and tightly packed as possible to prevent shifting and to maximize utilization of space.

c. If you anticipate the need to load directly into a container, you may want to bring someone to help. We are not staffed to load items into containers for you.

(6) If you are unsure whether or not you will have more or less than six pallet equivalents, please consult with our personnel and they will attempt to advise you.

(7) If you have a full container that you will load at your residence or other location, the container will arrive on a trailer. This means it will be about four feet from the ground, and that you will need to supply your own ramps to get access to the container. U-Haul and other rental agencies generally have such ramps available to rent.
